### **Clario Signs Distribution Agreement with Lanier Healthcare Canada**

SEATTLE, WA (September 16, 2009) – Clario Medical Imaging, Inc. has entered an agreement with Lanier Healthcare Canada for exclusive distribution of Clario’s zVision product in Canada. Lanier Healthcare Canada is a leading healthcare distributor in Canada supporting over 1,000 clients. Under the terms of the agreement, Lanier will provide exclusive sales, service and support of the Clario zVision product in Canada.

“The agreement with Lanier gives Canadian customers immediate access to zVision, with a revolutionary new software solution that provides superior radiology practice integration,” said Chris Wood, CEO of Clario. “Lanier brings a trusted and proven product support capability and existing relationships with customers throughout Canada”

“Partnering with Clario provides our customers with access to an innovative new Radiology software solution that can vastly improve workflow and increase efficiency, while simultaneously providing superior practice statistics. ” said Jan Wise, CEO of Lanier. “zVision provides benefits for nearly every Radiology practice, but is especially useful in multi-vendor and multi-site enterprises”.

zVision can dramatically improve radiologists' efficiency and accuracy by integrating the radiology environment and providing superior access to patient information through its unified worklist. zVision offers intelligent real-time monitoring of practice statistics, advanced search and filtering, communication tracking and integrated peer review.

- Integrate a multi-site, multi-vendor environment with zVision's RIS-based unified worklist
- Analyze your practice with productivity, turnaround and planning metrics from your real-time, customized dashboard
- Create customized worklists using advanced search and filtering
- Manage and track critical communications, ED preliminary reports and discrepancies
- Conduct quality assurance with peer review tools based on ACR's RadPeer

### **About Clario**

Clario partners with hospitals, imaging centers and private practice radiology groups to improve radiologists' efficiency through integration. Clario's flagship product, zVision, provides a benchmark unified worklist, intelligent real-time monitoring of practice statistics, advanced search, communication tracking and integrated peer review.
