Clario Medical Imaging Inc. Introduces their Customer Success Team

SEATTLE, WA- Clario Medical Imaging is taking their clients' interest to the next level by creating a Customer Success Team. The mission of the team is to partner with customers, and provide the tools customers need to reach their business potential.

Clario Medical Imaging is 100% client focused. The company has created a radiology workflow that was, and continues to be, focused around what radiologists want and need. The addition of the Customer Success Team allows Clario to keep their client focused trend strong throughout the company.

"Clario formed the customer success team because we want to provide a higher level of service than a typical Health IT company," said CEO Chris Wood. "Each Clario customer is assigned a Customer Success Manager (CSM) who functions as a resource and an advocate for that customer. The CSMs answer questions, suggest improvements, explain the benefits of new features, and resolve customer specific issues. Our investment in this new team demonstrates our commitment to helping our customers achieve their operational and expansion goals."

About Clario

Clario partners with hospitals, imaging centers and private practice radiology groups to improve radiologists' efficiency through system integration. For more information, visit www.clariomedical.com.
