**Clario Lands its 10th Customer from the Top 100 Radiology Practices:
Advanced Radiology Services, PC**

Seattle, WA. (April 25, 2016)—Clario has signed another Customer, Advanced Radiology Services, PC, making it their 10th customer who has achieved placement on the [Top 100 Radiology Practices](#). Advanced Radiology Services was ranked as the third largest practice owned by radiologists in 2015.

"We continue to invest in IT solutions to make sure that our practice is providing the best care to our patients," said Richard Lewis, Director of Clinical Applications. "Beyond patient care, we constantly strive to improve communication with referring physicians and the work environment for our radiologists. The comprehensive nature of the Clario Worklist and practice management suite will help us do that."

With the addition of Advanced Radiology Services, Clario is becoming the preeminent leader in enterprise radiology workflow.

About Advanced Radiology Services

Advanced Radiology Services, P.C. is a medical practice owned by radiologists. The practice completes over 1.6 million procedures per year and covers a significant portion of Western and Central Michigan, providing services at 21 hospitals. ARS currently holds the third position on the Top 100 Radiology Practices. For more information, visit www.advancedrad.com

About Clario

Clario has developed workflow management software. Their software allows radiologists to reconstruct their workflow with Clario's comprehensive worklist, portal and practice management tools, making radiologists day-to-day operations and patient care more productive and efficient.
