**StatRad Announces Signing of Distribution Agreement
for Clario's Enterprise Worklist System**

*Agreement supports StatRad growth, expanding client base and
delivery of advanced teleradiology services to improve health care*

SAN DIEGO — [StatRad](#), a leading provider of cloud-based medical image exchange technology and teleradiology services, has signed an agreement with [Clario](#) to use and distribute its zVision Enterprise Worklist software and services. The agreement extends StatRad's radiology services portfolio and allows the company to meet the increasing demand from their customer base for an enterprise worklist.

“Our double-digit growth the last few years has opened the door to numerous opportunities in our teleradiology markets. One of the more promising opportunities for us is the unified worklist,” said Claude Hooton, StatRad's President and Chief Operating Officer. “We wanted the preeminent solution on the market, and after an extensive international search, we selected Clario as our partner. Together, StatRad and Clario advance radiology practice workflow, help practices remain competitive and profitable, and allow them to deliver the highest quality services available.”

Clario's zVision integrates with any PACS, viewer, voice recognition system, and vendor neutral archive to build an integrated enterprise worklist system for radiology practices. The worklist system includes interruption management, automated assignment, shift optimized workflow, peer review, clinical test results management, real-time analytics exam follow-up and more.

StatRad now provides professional teleradiology services in 38 states and recently announced the signing of new teleradiology customers in six states. [RadConnect](#)[®], StatRad's medical image exchange platform, also recently launched its next generation web portal to help support the platform's rapid growth rate.

StatRad is fully accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and adheres to all policies and standards required for maintaining exceptional quality. In order to achieve the highest industry standards, all StatRad radiologists are board certified, most are subspecialty trained and all are located in the U.S. For more

information on partnering with StatRad visit www.statrad.com, review our recent [case studies](#) or call 855-835-3723.

About Clario

Clario partners with hospitals, imaging centers and private practice radiology groups to improve radiologists' efficiency through integration. For more information, visit www.clariomedical.com

About StatRad

StatRad provides cloud-based software to allow digital access to any medical image, anytime, anywhere. By delivering a fundamentally new way for the ingestion, exchange, storage, and interpretation of medical images, StatRad facilitates a global image exchange accessible by patients, physicians and healthcare networks. The company offers its innovative software as a service (SaaS) and as a platform (PaaS). StatRad also provides high quality interpretation of medical images through its award winning teleradiology services. For more information call us at 855-TELERAD (835-3723), visit www.statrad.com, or connect with us on [Facebook](#), [Twitter](#) and [LinkedIn](#).
